**RE: MASCO BATH STORMWATER PERMIT – REQUEST FOR TERMINATION
G&M FILE #100-56**

Dear Mr. Higgins,

On December 3, 2013, I met with Dan Hatch of the Jackson Field Office and guided him through the Masco Bath manufacturing facility located at 320 Industrial Park Drive in Adamsville, Tennessee in McNairy County. The primary purpose of Mr. Hatch's inspection was to confirm shut-down of the facility to support the termination of the stormwater permit currently held by Masco Bath for this facility. All operations at this facility have been terminated and all wastes and other potential pollutants have been removed from the site.

Please consider this letter a request for termination of Industrial Stormwater Permit number TNR050688.

After today's date, there will be no environmental management personnel onsite. Therefore, please contact Kimberly Eakes at 615-895-8221 if you have any questions regarding this request. Please forward notification regarding the termination of this permit to the following:

Garret Miller
21001 Van Born Road
Taylor, Michigan 48180

Copy: Kim Eakes
PO Box 2968
Murfreesboro, Tennessee 37133-2968

Thank you for your assistance with this request.

Sincerely,
MASCO BATH

Butch Dinger
Director of Manufacturing
